3. The mistakes are of such a nature that the meaning intended is not obvious from the context. For example, in Claim 3 and in the specification of the application, a "not equal" sign ( $\neq$ ) is used; however, the patent has an "equivalent" sign ( $\sim$ ), which is the complete opposite of what was intended. Accordingly, it is respectfully urged that a Certificate of Correction is appropriate for this case and such is respectfully solicited.

4. Please send the Certificate to the undersigned attorney at the address given below.

Respectfully submitted,

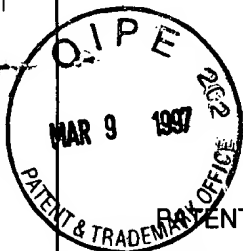

A handwritten signature in cursive script, reading "Gerald T. Bodner", written over a horizontal line.
